

Fire Extinguishers

Where are they situated? (See floor plan)

- 1 is just inside the main entrance door (on the right as you come into the hall) **Water filled and should not be used for electrical fires**
- 1 is on the inside front wall of the main hall next to the fire exit. **Water filled and should not be used for electrical fires**
- 1 is in the boiler room just inside the door as you enter the room. **Powder filled for all purposes**
- 1 is in the kitchen on the left as you enter. **Powder filled for all purposes including electrics**
- Fire Blanket – in the kitchen on the left as you enter. **Effective for the immediate smothering of small fires.**

How to operate the extinguishes

- Hold it upright
- Pull out the pin
- Aim at the base of the fire at a minimum distance of 1 metre
- Squeeze the lever

Maintenance

These are all subject to an annual maintenance agreement

ESCAPE ROUTES

Whenever possible leave using the main door in the hall out onto the front garden/road.

If this is blocked leave by the fire exit in the main hall if possible or by the fire door at the end of the corridor next to the boiler room.

ASSEMBLY POINTS

When evacuating the hall everyone should leave the hall as quickly as possible and gather in the driveway of Beaulieu, the property next door, if it is safe to do so. Otherwise they should walk to Hopes Grove and assemble on the grass area.
